

We know you are on the go and can't always get to information you need. So MERLOT has partnered with Research In Motion (RIM), makers of BlackBerry® smartphones, to provide you with a convenient tool, *MERLOT Mobile Search*. Access *MERLOT Mobile Search* virtually anywhere you take your mobile phone. Search and find learning materials in MERLOT and email them to yourself or to a colleague. All this delivered in a simple interface that makes it easy to search MERLOT when you are away from your computer.

Can I have the *MERLOT Mobile Search* application link sent to my BlackBerry® smartphone?

Yes. Go to <http://mobile.merlot.org> and enter your email address. We will send the link for *MERLOT Mobile Search* to your phone for you to download and install*. Once installed, click on the icon to start using *MERLOT Mobile Search* on your device.

How do I download *MERLOT Mobile Search* from the BlackBerry® Browser?

1. From your BlackBerry Web browser** type in <http://mobile.merlot.org>.
2. Follow the prompts to download and install *MERLOT Mobile Search*.
3. From the desktop on your device, select the MERLOT icon and enter your search criteria.

Is there a cost for *MERLOT Mobile Search*?

No. *MERLOT Mobile Search* is free. We encourage you to share the link with others.

*Depending on how your System Administrator set up your device, you may be required to enter a password to download an application. See your System Administrator for further information. This password is not required by MERLOT.

**Requirements: Although the service is free from MERLOT, a data plan from your carrier is required to browse the Web. Carrier charges may apply.
